

# GRID-SAVER™

## FAST ENERGY STORAGE SYSTEM

### SPECIFICATIONS

<b>Battery Subsystem</b>	
Output voltage (nominal)	640-1,000 VDC
Energy storage capacity	Up to 1 MWh
Charge cycles	1,800 to 3,000
<b>Inverter Subsystem</b>	
Output voltage	690 VAC
Maximum power	2-3 MW
<b>Total System</b>	
Storage/Release/Conversion efficiency	97.5%
System weight	15,000 kg.
System dimensions	20'l x 8'w x 10'h

#### Features

- Advanced battery management system
- Modular, scalable subsystems
- Demand response using smart inverters with active communication protocols
